WASHINGTON LETTER.

[From our Regular Correspondent.] WASHINGTON, D. C., Nov. 6 .-"President Cleveland," said 2 gentleman who is a frequent and welcome visitor at the Presidents suburban residence, "has fewer of the sav» ge elements which cause men to grow offensively exultant over their triumphs than any prominent public man I have ever known. and I have known many. While he was gratified that Congress carried out the ideas expressed in his message by unconditionally repealing the purchasing clause of the Sherman silver law, his gratification was tinged with regret because a majority of the democratie Senators voted against repeal; but he bears them no ill-will for having done so, believing them to be as honest in their opinions as he is in his own, and also believing that time will show them their er-

Now that Congress is out of the way for a few weeks it is expected that a large number of important appointments will be made, and republicans who are filling offices the commissions of which have expired would better be making thier preparations to step down and out. This expectation has kept a considerable number of Senators and Representatives in Washington since Congress adjourned.

The adjournment of Congress will not result in a vacation for the democratic members of the House Ways and Means committee; on the centrery they are working harder than ever, as it is their intention to get the new tariff bill completed at as early a day as possible. Daily sittings of the committee are now being held, under a resolution adopted by the House and chairman Wilson hopes to be able to furnish the republican min ority of the committee with a copy of the completed bill in about iw weeks, so that they may have tim enough to prepare their report in order that the bill and the majority and minority reports may be submitted to the House together during the first week of the regular session.

The Presidents message on Hawaii's application for annexation was ready to be sent to the Senate last week, but as the sentiment for adjournment was so strong it was thought best to withhold it until the regular session.

The Chinese Minister was greatly pleased at the action of Congress in amending the Geary law, and he has promised Secretary Gresham that the whole influence of the Chinese government will be exerted to compel the Chinese in the United States to apply with the law within the six months which the amendment gives them.

Owing to the estimates of the various departments of the government for the financial year not being quite ready the members of the House committee on Appropriations will get two weeks of rest, but on the twentieth instant they will begin to prepare the regular Appropriation bills and from that time until the bills become laws they will be on the jump all the time. The work of this committee is always hard, but it will be harder Both Houses Safely than usual this year, because the condition of the Treasury makes it necessary that every item shall be scrutinized and everything lopped off that can be done without.

This is the sensible way that Senator Voorhees answers the silly talk that has to a certain extent been indulged in by some crackedbrained people about the repeal of the purchasing clause of the Sherman silver law resulting in a split in the democratic party: "On the democratic side of the chamber, while there were very strong differ-ence of opinion, I do not know of a single unfriendly feeling left by 150 in this county, with Jones the protracted discussion. Neither party organization nor personal relations have been disturbed. We will take up our work on tariff and other great questions when we meet in December as if nothing had happened to mar our peace with majority. ELECTION DAY.

Unusual quiet prevailed all over the county election day. It was so different in this respect from other elections that one would not have known that it was election day. It can certainly be said of this election that every vote was cast unhindered. No pulling and hauling or buying votes this time. It would be much better for our counry if all elections could be conduct-

as will be seen by the table given below all three of the tickets were

The full official returns for the county, for each candidate, except Lieutenant governor and Attorney General which are practically that for governor, will be found in the following table:

They gave me up to die, when I got Dr. Fenner's Kidney me up to die, when I got Dr. Fenner's Kidney and Backache Cure. Soon commenced discharging matter in the urine. After taking five bottles, I got all right, well and sound. It is regarded as a wonderful cure. I was expected to die as I am 70 years old." This would be wonderful if we were not used to receiving just such letters. Equally good in female complaints, rheumatism, heart disease, dropsy, and all blood diseases.
